# Scan this QR Code first while on the Loyola Internet

## Set up printing on your Android device

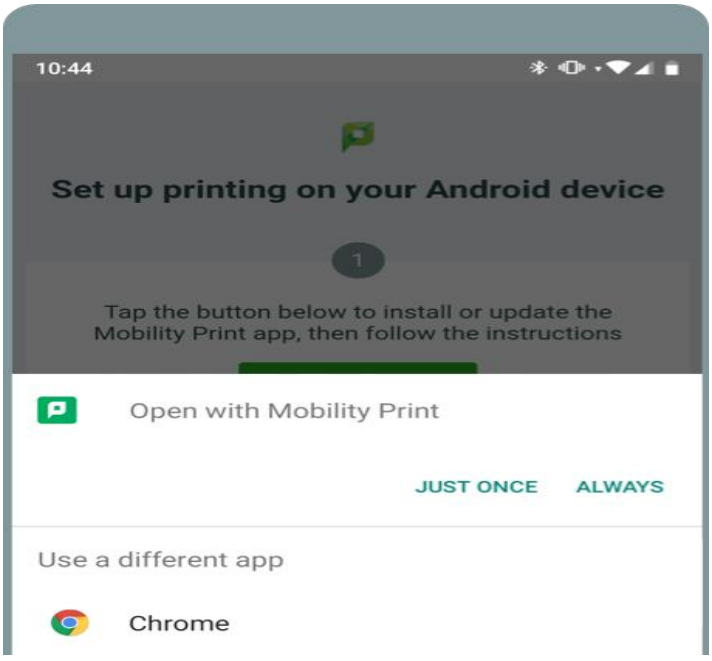

1

Tap the button below to install or update the Mobility Print app, then follow the instructions

Install or update

2

If you see the screen below, choose Mobility Print to get the latest printers.

To print, select a printer that has the PaperCut icon next to it

Then print as usual, the Papercut Mobility Printers will now show up in your printer selection list.

You will need to swipe your student ID at the printer you selected to release your print jobs

## Set up printing on your iPhone or iPad

1

### Download your profile

Tap the button below to download your Mobility Print profile

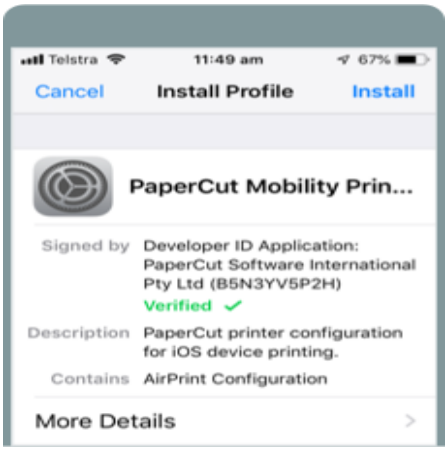

Download

Note: **You have to use Safari** to download and install the profile

2

### Install the profile

Open iOS Settings, General, VPN & Device Management.
Then select PaperCut Mobility Print and click Install.

Then print as usual, the Papercut Mobility Printers will now show up in your printer selection list.

You will need to swipe your student ID at the printer you selected to release your print jobs

## Scan this QR Code first while on the Loyola Internet or go to http://secureprint:9163/setup

## Set up printing for Windows

1

Click the button below to download Mobility Print or go to http://secureprint:9163/setup

Download

2

Run the Mobility Print installer to install your printers

When it's time to print, just print like you normally do

TIP

Don't change the name of the installer; it tells Mobility Print where the printers live

Then print as usual, the Papercut Mobility Printers will now show up in your printer selection list.

You will need to swipe your student ID at the printer you selected to release your print jobs
